

# Project Reference

## Ostbahn-Bridge, Vienna (Austria)

Application	Open steel bridge
Length of track:	Ostbahnbridge
Material used:	Bridge sleepers
Country:	Austria
Project location:	Vienna
Owner:	ÖBB

### Project description:

As part of the refurbishment of the Ostbahn bridge in Vienna, Austria, the ÖBB exchanged the existing wooden sleepers for FFU synthetic wooden sleepers. As a result, the running costs are significantly reduced compared to the conventional design.
